TESTIMONIAL FOR COOLUBE 2210
6/19/2003

To Whom It May Concern,

Before we started using Coolube 2210 we were going through one gallon a week of the AccuLube, since we have been using your product we are going through one gallon every month. The life of our drills have also increased. Before the Coolube 2210 we were using seven drills per shift, currently we are using two drills per shift. Overall we are very pleased with the performance of your product.

Respectfully Yours,

Steve Raley
Production/Process Engineer
Buck Knives Inc.
